For the last several years, NUEPA has been actively involved in strengthening the Educational Management Information System (EMIS) in the country. The Analytical Tables: Elementary Education in India: Progress towards UEE is based on the data received from all the States & UTs of the country for the year 2015-16. The publication presents not only state-specific indicators but also brings in many new dimensions of elementary education into focus. It incorporates key indicators on all aspects of universalisation of elementary education in case of all the States & UTs of the country. The Analytical Tables: 2015-16 is based on the data received from as many as 1.45 million schools spread over 680 districts across 36 States & UTs.

The study of this magnitude cannot be completed without the active involvement and participation of the EMIS professionals at the national and sub-national levels. I am extremely thankful to all the State Project Directors, the state level EMIS coordinators and district level programmers and data entry operators for timely supply of data.

I take this opportunity to thank UNICEF, Delhi for consistently supporting EMIS activities ever since the inception of DISE and Secretary, Additional Secretary, Joint Secretary and Directors, Department of School Education & Literacy, Government of India, who played a crucial role in facilitating the implementation of U-DISE in various states.

I am thankful to Prof Jandhyala B. G Tilak, Vice-Chancellor (I/C), NUEPA, for encouragement and guidance. I take this opportunity and thank NUEPA faculty for their support. The contribution of Shri Naveen Bhatia, System Analyst, NUEPA in database management, is gratefully acknowledged. I am thankful to Ms. Shakun Sethi, Project Consultant (DISE Project) and Ms. Aseela M. for computing indicators that have been presented in the document. I am also thankful to Ms. Aparna Mookerjee, Project Consultant, Mr. Arun Joshi, Project Publication Officer and colleagues in the DISE Project for timely bringing out the publication.

I hope that this publication will be of value to education planners, policy formulators and researchers. Suggestions for improvement are most welcome.

New Delhi

Disclaimer

Raw data presented in the document or used for calculating indicators are essentially based on data provided by the States and UTs through annual data collection (as on 30th September 2015) under DISE. NUEPA is committed to provide professional and software support to all States and UTs as well as for dissemination and analysis of data as it is provided by the individual States and UTs.

In no way, NUEPA is involved in data collection as such and therefore the accuracy and truthfulness of the data rest with the States/UTs. The State Project Directors have certified that data is free from errors and inconsistencies and hence may be merged into the national database maintained at NUEPA, New Delhi.

Executive Summary

1. Introduction

- 1.1 The National University of Educational Planning and Administration has created a comprehensive computer based system that provides researchers and policy planners the tools required to evaluate all aspects of elementary education in India known as District Information System for Education (DISE). During 2012-13, scope of U-DISE was expanded from Primary and Upper Primary Levels to Secondary and Higher Secondary levels of Education and it is then known as Unified- DISE (U-DISE). It covers all the recognised and unrecognised schools and madarasas which is imparting formal education across all the 680 districts of the 36 States and UTs of the country.
- 1.2 The MIS Units are now operational both at the district and state levels and are equipped with necessary hardware and software. A number of states have set up MIS Units at the block level. The U-DISE software is operational in all the districts of the Country and is providing vital information for policy formulation and preparation of district elementary education plans. What is remarkable about U-DISE is that it has drastically reduced the time-lag in the availability of educational statistics, which is now down from 7-8 years to less than a year at the national level and only a few months at the district and state levels.
- 1.3 The National University has successfully developed School Report Cards (www.schoolreportcards.in) of more than 1.45 million primary and upper primary schools/sections, and is available for eleven years i.e. 2005-06 to 2015-16. In addition to quantitative information, the School Report Cards also provide qualitative information and descriptive reports about individual schools. What is most amazing is that all this information can now be accessed on the click of a mouse. The School Report Cards provides users comprehensive information on all vital parameters, be it student, teacher or school related variables, in concise, accurate and standard format which is easy to understand and allows meaningful comparisons to be made among schools. In addition, report cards in case of more than 252 thousand Secondary & Higher Secondary schools is also made available.
- 1.4 U-DISE users can also download raw data as per their requirement for further empirical studies. All the U-DISE publications, such as ‘District and State Report Cards’, ‘Elementary Education in Rural and Urban India’, ‘U-DISE Flash Statistics including Educational Development Index’, and ‘Elementary Education in India: Progress towards UEE, Analytical Reports’, are available at www.dise.in. Recently three new publications namely ‘Graphic Presentation’, ‘Thematic Maps’ and ‘Elementary Education in India: Trends over a Decade’ have also been made available at www.dise.in.
- 1.5 School Report Cards under the Project U-DISE is a joint project of NUEPA and Department of School Education and Literacy, Ministry of HRD, Government of India and is the recipient of National and International awards: e-Governance 2010, eINDIA 2010 National Awards and the Manthan Award South Asia 2010 and the EMPI Indian-Express Indian Innovation Award in 2012.
- 1.6 Despite significant increase in the number of schools covered under U-DISE, a few schools are yet to be covered; rigorous efforts are being made to reach all such schools.

- 1.7 To further improve the quality of data, it has now been made mandatory for all the states to check the data on five percent random sample basis through an independent agency (mostly ICSSR funded institutions and University Education Departments) each year. States are advised to initiate corrective measures in the light of the findings of the random sample.
- 1.8 U-DISE is user-friendly, menu-driven and constantly evolving software. Every effort is being made to further improve the software. The Data Capture Format is reviewed every year and it has become important in view of the Right to Education Act. From the year 2016-17, it is proposed to collect detailed students' data and generate U-DISE enrolment tables based on it.

2. Elementary Education in India: Progress towards UEE

- 2.1 To produce meaningful information, data collected from all the 36 states during the year 2015-16 has been summarized in the form of reports. These reports help us in accessing the true health of the prevalent education system in our country. A variety of school and school related variables encompassing school infrastructure, facilities, enrolment, and teachers are summarized by school category in easy to use reports.
- 2.2 The major highlights of Elementary Education in India: Progress towards UEE, 2015-16 is given in the following sections. Different Sections containing reports are categorised under the following categories: School and Facility indicators, Enrolment-Based indicators and Teacher-Related indicators.

3. School-Based Indicators

- 3.1 With the improved coverage, the number of schools/sections imparting elementary education covered under U-DISE increased many-fold. From 8,53,601 schools in 2002-03, their number has increased to 11,96,663 schools in 2006-07, to 12,50,775 in 2007-08, 12,85,576 in 2008-09, 13,03,812 in 2009-10, 13,62,324 in 2010-11, 14,12,178 in 2011-12, 14,31,702 in 2012-13 and to 14,48,712 in 2013-14 but decreased to 14,45,807 in 2014-15 and further increased to 14,49,078 in 2015-16. Of the total schools, about 85.38 percent schools are located in the rural areas. Number of independent primary schools increased from 8, 53,870 in 2012-13 to 8, 58,916 in 2013-14 and it is showing a decreasing trend 8, 47,118 in 2014-15 and 8,40,546 in 2015-16 which is largely because of merging of schools in a few states.. Category-wise distribution of schools reveals that majority of the schools (58.00 percent) in India are independent primary schools.
- 3.2 The ratio of primary to upper primary schools/sections which clearly shows the impact of Sarva Shiksha Abhiyan under which a large number of schools have been opened in the recent past. This ratio for the year 2015-16 is one upper primary school/section for every 1.99 primary schools/sections. When this figure is compared over time, one can notice a steady decline in the ratio of primary to upper primary schools/sections. The ratio stood at 2.27 in 2008-09, 2.23 in 2009-10, 2.12 in 2010-11 and 2.07 in 2011-12, 2.06 in 2012-13, 2.04 in 2013-14 and 2.02 in 2014-15. The data also suggests that in about 19 states, the ratio of primary to upper primary schools/sections is better than the national average of 1.99. Many of the states have the ratio equivalent to almost two, all of which suggests that by and large schooling facilities have been created and are available across the country. States like Chandigarh (1.04), Daman & Diu (1.28), Delhi (1.69), Gujarat (1.33), Haryana (1.34), Karnataka (1.73), Kerala (1.79), Lakshadweep (1.46), Maharashtra (1.90), Mizoram (1.29), Nagaland (1.65), Odisha (1.79), Puducherry (1.43), Punjab (1.55), Rajasthan (1.62), Telangana (1.81) and Uttar Pradesh (1.90) have a ratio below 2. Despite significant improvement, there are a few states, such as Assam (3.02) and West Bengal (4.16) where the ratio still needs to be further improved.
- 3.3 Obtaining data from all the private schools is a challenging task. Concerted efforts made by the National University have resulted in a significant

increase in the number of such schools covered under U-DISE over a period of time. This is important to assess the true picture of universalisation of elementary education in the Country. There were as many as 66,454 and 2,68,014 schools in 2015-16 being managed by the Private Aided and Private Unaided managements respectively. U-DISE data also suggests that majority of the private schools are unaided schools (80.13 percent). The percentage of government and government aided schools is as high as 78.91 which show that about eight out of every ten schools imparting elementary education in the country is funded by the government. From 2010-11 onwards U-DISE has extended its coverage to unrecognized schools and madarsas also. This covers unrecognized schools, recognized madarsas and unrecognized madarsas imparting formal education. In 2010-11, the coverage was 26,377 (unrecognized schools), 4,473 (recognized madarsas) and 2,167 (unrecognized madarsas). In 2015-16 there were 24,852 unrecognized schools, 10,064 recognised madarsas and 2,700 unrecognized madarsas covered under U-DISE and its contribution to total elementary schools is 2.60 percent.

- 3.4 A significant achievement is seen in most of the new schools that have opened in the recent past is the presence of a school building. As many as 3,86,468 new schools have been opened since 2002-03, majority of which are located in the rural areas and 97 percent of these schools have a school building. During the period 2002-03 to 2015-16, as many as 2, 12,621 primary schools have been opened which is 25.30 percent of the total primary schools in the Country. More than 96 percent of such schools have a building.
- 3.5 Not only the number of schools and schools with buildings increased but also the average number of instructional rooms has increased across the country which is essential for smooth teaching-learning transaction. Irrespective of the school type, schools imparting elementary education across the 680 districts in 2015-16 has an average of 5.1 classrooms, compared to 3.8 in 2005-06. However, a significant difference is noticed in the average number of instructional rooms, in primary schools located in rural areas (3.5 classrooms) and urban areas (5.5 classrooms) and also in government (3.3 classrooms) and private (5.9 classrooms) managed schools.
- 3.6 Schools imparting elementary education across the country vary in size. There are about 12.66 and 19.99 percent schools respectively which have enrolment between 1-25 and 26-50. There are a large number of small schools, which suggests that there is a need to have separate programme for these schools. In view of the large number of such schools (about 33.46 percent of 1. 45 million schools), the National University had undertaken a research study, exclusively based on the U-DISE data which can be seen at www.dise.in
- 3.7 Some of the salient highlights with regard to other school-based indicators are as follows:
 - 3.7.1 The percentage of single-classroom schools during 2004-05 to 2008-09 declined from 10.39 percent to 4.20 in 2015-16. However, the percentage of such primary schools is 6.06 percent. Despite the decline in percentage of single-classroom schools, their number in absolute terms (60,879) is significant, which needs immediate intervention.
 - 3.7.2 Over a period of time, the student-classroom ratio (SCR) has shown steady improvement. On an average, about 23 students are sitting in one classroom in primary schools compared to 24 in 2014-15 and 39 in 2005-06. States like Bihar which has a SCR of 51 down from 52 in 2014-15, Delhi 38 from 39 and Chandigarh 39 from 40 show high SCR. Every effort must be made to build more classrooms in these states. Number of districts where SCR is greater than 30 has declined from 239 (2010-11) to 203 (2012-13) and to 159 in 2013-14 but increased to 162 in 2014-15 and further decreased to 125 in 2015-16. Primary schools/sections with SCR greater than 30 was 25.74 in 2015-16 compared to 27.51 in 2014-15. Similar is the case for upper primary schools with SCR greater than 35. A marginal improvement is seen, from 33.17 in 2009-10 to 28.96 in 2014-15 and 28.01 in 2015-16.

3.7.3 Average number of instructional days in previous academic year at primary level is 224 days in 2015-16. At upper primary level, it was 223 days. Percentage of Primary only schools (Government and Aided) with less than 200 working days decreased from 4.46 in 2014-15 to 3.60 in 2015-16. Percentage of upper primary schools/sections with less than 220 working days increased from 20.20 in 2014-15 to 26.60 in 2015-16.

4. Facility Indicators

- 4.1 Like number of schools, instructional rooms, ratio of primary to upper primary sections/schools and other indicators, facilities in schools have also improved significantly which is true for physical, ancillary and teaching-learning facilities. Availability of basic facilities in schools may not only attract more children but also help in improving retention rate.
- 4.2 About 96.76 percent schools in 2015-16 had drinking water compared to 96.06 percent in 2014-15 and 83 percent in 2005-06. About 52.89 percent of the total schools had water hand-pumps, and 27.57 percent had tap-water facility. The percentage of schools with boys' toilet is 97.07 out of which 96.01 percentage are functional and to 97.58 percentage of schools have girls' toilet out of which 96.83 are functional. Around 52 percentage schools have hand wash facility available near toilet. In case of Government schools 97.71 percentage schools have boys' toilet and 98.25 percentage schools have girls toilet.
- 4.3 Some of the other major facilities available in schools are:
- 4.3.1 During the period 2004-05 to 2015-16, the number of schools with computers increased substantially from 8.99 to 25.97 percent out of which 54.07 percent are functional. About 10.36 percent Primary only schools have computers whereas the same at Upper Primary schools sections was 47.52 percent. Around 24.01 percent schools have both electricity and computer. All schools in Lakshadweep has both computer and electricity whereas Bihar has only 6.06 percent schools have both. In case of primary only schools, states like Assam (0.27 percent), Bihar (1.52 percent), Jharkhand (1.49 percent), Madhya Pradesh (1.55 percent), Manipur (0.85 percent) and Odisha (1.63 percent) have less than 2 percentage schools having both electricity and computer. As many as 3, 76,294 (3, 64,834 in the previous year) schools reported to have a computer. In absolute terms, Maharashtra has the highest number of schools (55,893 i.e. 56.91 percent) with computers followed by Tamil Nadu (33,138, 57.59 percent) and Gujarat (32,523, 73.83). In percentage terms, Lakshadweep (100.00), Puducherry (98.78), Chandigarh (94.53 followed by Kerala (94.30) are the states where schools with computers is more than 90 percent.
- 4.3.2 Only 37.33 percentage schools required ramp and out of which 82.60 percentage schools have ramp in 2015-16. In 2014-15, 41.05 percentage schools required ramp out of which 77.37 percentage schools were having ramp. Availability of ramp is expected to attract more physically challenged children to the school. There were 2.29 million disabled children enrolled in 2015-16. Together with enrolment by nature of disability, U-DISE is perhaps the only source that provides comprehensive information about physically challenged children in schools and that too is available by the nature of disability.
- 4.3.3 Providing nutritious food to all children under the mid-day meal scheme is one of the ambitious programmes of the government. For the first time, a variable on availability of kitchen-shed in school was added to U-DISE during 2006-07. In 2006-07, 29 percent of schools managed by the government (including aided schools) had kitchen-shed in school. In 2015-16, 80.02 percentage Government and Aided schools preparing and providing Mid-day meal has kitchen shed. Around 98 percentage schools (Government & Aided) are providing mid-day meal out of which 91 percentage schools are preparing it in the school premises itself.

4.3.4 The percentage of primary schools/sections having attached pre-primary section stood at 24.07 in 2015-16, compared to 14.27 in 2002-03. Percentage share of enrolment in pre-primary classes to total enrolment in primary classes slightly increased from 10.31 in 2014-15 to 10.72 in 2015-16.

5. Enrolment-Based Indicators

- 5.1 The enrolment in primary classes increased from 101.16 million in 2002-03 to 131.85 million in 2006-07 and further to 133.41 million in 2009-10, 135.21 million in 2010-11 and 137.10 million in 2011-12 and thereafter it is showing a decreasing trend. It decreased to 134.78 million in 2012-13 to 132.43 million in 2013-14, to 130.50 million in 2014-15 and 129.12 million in 2015-16. At upper primary level the enrolment increased consistently from 66.47 million on 2013-14 to 67.17 million in 2014-15 and to 67.59 million in 2015-16. The GER and NER are 99.21 and 87.30 and 92.81 and 74.74 respectively at Primary and Upper Primary levels of education. GER of SC at primary level and upper primary level are 110.90 and 102.40 respectively. The same for ST are 106.74 and 96.71 respectively in 2015-16.
- 5.2 The average of 680 districts in 2015-16 indicates the ratio of girls to boys enrolment is 0.93 in primary classes and 0.95 in upper primary classes and both were also same in 2013-14 and 2014-15. Percentage girls' enrolment shows a decreasing trend, however decrease is only marginal. At primary level, it decreased slightly from 48.20 (2013-14) to 48.19 in 2014-15 and to slightly increased to 48.21 in 2015-16. At upper primary level, it slightly decreased from 48.66 in 2013-14 to 48.63 in 2014-15 and it remained the same in 2015-16.
- 5.3 At the Primary level, the share of SC and ST enrolment with respect to total enrolment in 2015-16 works out to 19.94 and 10.64 percent respectively. At the Upper Primary level, it was 19.49 percent and 9.81 percent respectively. Notably, at all levels, government schools are the main providers of educational needs of both SC and ST children. SC and ST enrolment together had a share of 37.35 and 35.95 percent respectively of the total enrolment in government run Primary and Upper Primary schools. The share of OBC enrolment in the Primary and Upper Primary classes in schools across the Country was 45.05 and 45.15 percent respectively.
- 5.4 During 2006-07 U-DISE data collection, an attempt was made to collect information on enrolment of Muslim children for the first time. In 2015-16, the percentage of Muslim enrolment at Primary level is reported to be 14.43 (14.37 in 2014-15) against 12.60 in 2015-16 at Upper Primary level. The percentage of Muslim girls' enrolment is as high as 49.05 (Ratio of girls' to boys' Enrolment, 0.96) and 51.35 (Ratio of girls' to boys' Enrolment, 1.06) respectively at Primary and Upper Primary levels of education. Preliminary analysis suggests that there are about 79 districts in the Country which have 25 percent or more Muslim students in primary classes. Most of these districts are from the states of Assam (14), Jammu & Kashmir (17), Lakshadweep (1), Kerala (6), Uttar Pradesh (12) and West Bengal (10).
- 5.5 A lot of emphasis is given to include and integrate children with special needs into the education system. The percentage enrolment of such children was 1.18 at the primary level and 1.13 at the upper primary level. U-DISE is perhaps the only source that collects information on disabled children in elementary classes on regular basis by nature of disability. In 2015-16, about 2.29 million (overall ratio of girls' to boys' enrolment, 0.74) disabled children were enrolled in elementary classes across the country, of which 1.52 million (ratio of girls' to boys' enrolment, 0.71) were in Primary and 0.77 million (ratio of girls' to boys' enrolment, 0.78) in Upper Primary classes.
- 5.6 One of the essential requirements to achieve UEE is to retain students in the education system. The ratio of Grade V to Grade I enrolment in 2014-15 is 92 percent. This is also reflected in the retention rate at primary level which is estimated to be 84 percent. Retention rate of SC, ST and Muslim

were 83.46, 70.88 and 80.92 percentage respectively.

- 5.7 The average annual dropout rate decreased from 4.15 in 2013-14 to 4.10 in 2014-15 at elementary level. At primary level, it decreased from 4.34 to 4.13 and at upper primary level, it slightly increased from 3.77 to 4.03. At Elementary level the drop-out rate is 7.29 in Government schools. Similarly elementary level dropout rate of SC was 4.81, ST 7.46 and Muslim 7.45. Further analysis of primary level dropout rate grade wise reveals that Grade II has the lowest dropout rate (1.63) and Grade V has the highest (9.46). A few states have almost achieved the goal of universal retention at primary level.
- 5.8 One of the other important indicators that are essential to achieve UEE is a high transition from primary level to upper primary level of education. It has improved significantly from 64.48 percent in 2002-03 to 90.14 in 2015-16. Both Boys and Girls have a transition rate of about 90 percent and the same for rural areas is 87.
- 5.9 Examination results at Grade V reveals that 98.68 percent boys have passed the examination and out of which 62.43 percent have scored more than 60 percentage where as 98.64 percentage girls has passed Grade V examination out of which 62.85 percent have passed with more than 60 percentage. In case of Grade VIII, 98.51 percent boys passed the examination and 56.37 have passed with more than 60 percentage where as 98.39 percent girls have passed the examination out of which 57.23 percent scored more than 60 percent.

6. Teacher-Related Indicators

- 6.1 Availability of teachers in schools is an important variable for quality education. The total number of teachers in 2015-16 suggests that about 8.08 million (7.96 million, the previous year) teachers are engaged in teaching in schools imparting elementary education across the Country. The data also shows appointment of a large number of teachers across the Country consequent to the SSA interventions. All the schools in the country now have an average of 3 and more teachers. The all-India average reveals that, on an average, there were 5.6 teachers in a school in 2015-16 that imparts elementary education compared to an average of 3.1 teachers per primary school.
- 6.2 About 48 percent of the total teachers in 2015-16 are female teachers across the country. Data from 2005-06 suggests that the number of female teachers were steadily increasing from 40.33 percent, it was 47.70 in 2014-15. Urban areas had higher percentage of female teachers at almost 66 percent compared to rural areas at 41 percent. Irrespective of school types, a significant difference is also noticed in case of female teachers in schools under private (56 percent) and government managements (42 percent).
- 6.3 Increase in the number of teachers is also reflected in the pupil-teacher ratio which has shown consistent improvement. Overall PTR was 24 in 2015-16, it has reduced significantly from 36 in 2005-06. During 2015-16, at the primary level, it was 23 students per teacher while at the upper primary level it was 17. Number of districts where PTR was above 30 was 140. The concentration is mostly in Bihar, Jharkhand and Uttar Pradesh. Similarly, percentage of schools with PTR greater than 30 at the primary level has shown significant improvement, from 27.11 in 2014-15 to 25.93 in 2015-16. States like Bihar at 65.92, Delhi (42.92), Jharkhand (41.23) and Uttar Pradesh 57.70 shows more than 40 percent of Primary schools having PTR above 30. At the upper primary level, percentage of schools having PTR above 35 is decreased to 13.46 compared to 14.11 for the previous year. In Bihar, not only is pupil-teacher ratio high but also the student-classroom ratio.
- 6.4 The percentage of teachers in Government schools is showing a decreasing trend. It was 61.47 in 2012-13, 59.73 in 2013-14, 58.81 in 2014-15, 57.87 in 2015-16 and it was 69.14 in 2006-07. The percent teachers' in aided schools is decreased from 8.63 in 2014-15 to 8.48 in 2015-16. Percentage teachers

in unaided schools increased from 29.93 in 2014-15 to 30.79 in 2015-16. Percentage of teachers in unrecognized schools and madaras increased from 2.63 in 2014-15 to 2.86 in 2015-16.

- 6.5 Percentage of teachers received in service training is 14.90 in 2015-16. The percentage was 40.21 in 2010-11 and it is decreased to 18.34 in 2014-15. In case of teachers in government schools, the value decreased from 27.90 in 2014-15 to 23.17 in 2015-16. In aided schools, it stood at 13.22 compared to 15.55 percent in 2014-15. In unaided schools, it was 1.11 in 2015-16 compared to 1.82 in 2014-15.
- 6.6 There are about 1.1 million contractual-teachers in 2015-16, constituting 13.18 percent of the total teachers. The government managements have the largest number of contract teachers (14.26 percent). In aided schools, the percentage is 4.31 in 2015-16. The percentage of professionally trained regular teachers was 82.41 percent in 2015-16, the same for contractual-teachers is 67.02.
- 6.7 The average age of teachers across states suggests that majority of the teachers in primary schools are between 26-45 years, which is true for all types of schools. The percentage of teachers in the age group 18-25 years across school types has been decreased from 7.86 in 2014-15 to 7.13. In Government schools, 7.43 percent, in Aided schools 8.61 percentage and in Unaided 3.29 percentage teachers are above the age of 55. Exactly 6.16 percent of the total teachers imparting elementary education are expected to retire during the next 2 to 3 years. The process of recruitment needs to be initiated well in advance to fill-up these soon to be vacant positions.

7. U-DISE-Marching Ahead

- 7.1 India's education policy lays emphasis on Universalisation of Elementary Education (UEE). The role of education in facilitating social and economic progress is well recognized. Improvements in education will not only enhance efficiency but also increase the overall quality of life. Empowering the youth with skills, knowledge and access to productive employment in future is a central instrument for achieving rapid and all inclusive growth. System/ Sector Analysis plays a crucial role in examining the functioning of the education system, identifying major issues, challenges and opportunities. Year on year U-DISE has been collecting data which plays a crucial role in examining and analyzing the system functions and the various contextual factors with respect to the environment of the education system. From the year 2016-17, it is proposed to collect detailed students' data on 35 parameters and generate U-DISE enrolment tables based on it.
- 7.2 U-DISE collects school-wise information with respect to various variables. The U-DISE Data Capture Format (DCF) is updated annually to include new variables in consultation with the state government. U-DISE has become more important in the light of the Right to Education Act 2009. It has included various RTE parameters in its DCF. Given the shift in the focus of planning from the national, state, district level to the school level, U-DISE data on RTE can prove useful.
 - 7.2.1 Given the diversity of the Country, issues and challenges need to be focus based. Long term, medium-term and annual plans that focuses emphasis or targets issues and challenges at the micro level like girls' education (bridging the gender gap), education for schedules castes scheduled tribes and other backward classes as well as resource allocation.
 - 7.2.2 Analysis of Pupil-Teacher Ratio, Student-Classroom Ratio, number of contractual-teachers, teachers' training, and teacher's educational and professional qualifications can be used to access whether teachers fulfil the minimum qualification that can be used as a baseline for accessing teacher's quality and identification of teachers' needs.

- 7.2.3 U-DISE data is available over a period of time. If certain issues and challenges are identified then a comprehensive trend based as well as focus contextual analysis can be undertaken.
- 7.2.4 With the inclusion of the local community in the school management, localised problems can be easily identified and resources mobilized to solve problems at the habitation level.

A black and white photograph of a group of young school children, likely of South Asian descent, sitting in a classroom. They are wearing school uniforms, including sweaters and collared shirts. The children are looking towards the camera with various expressions, some serious and some slightly smiling. The lighting is bright, coming from the left, creating strong highlights and shadows. The background is slightly blurred, focusing attention on the children in the foreground.

Part II

Facilities in School

Note: States showing above 100 have not been reported for Ratio of Grade V to I, Transition Rate, NER and Age-specific Enrolment ratio. Negative Drop-out rate is also not reported

***: Computed based on projected population by using Census 2011 single-age population. Grade V Enrolment/Population of age '10+' is considered

++: Ratios are based on projected child population provided by the Department of Higher Education, Ministry of HRD

** Previous academic year. * Based upon one year enrolment data.

** Retention rate at Primary level is based on enrolment data of Gradel (2011-12) & Grade V (2015-16) including enrolment in unreco. schools.

A high-angle, sepia-toned photograph of a group of young children, likely in a classroom or school setting. They are sitting on the floor, holding books and looking towards the camera. The children are of various ethnicities and are dressed in casual clothing. The room has a simple, somewhat worn appearance with visible walls and a doorway in the background. The overall mood is educational and focused.

One Million+ School Report Cards (www.schoolreportcards.in)

Winner of Manthan Award South Asia 2010 &
e-Governance and eINDIA 2010 National Awards &
EMPI-Indian Express Indian Innovation Award, 2012

The National University of Educational Planning and Administration has created a comprehensive database on elementary education in India under one of its most prestigious projects, known as, District Information System for Education (DISE). Off late, MIS for Secondary level of education has also been developed which covers both Secondary and Senior Secondary schools/sections of all the districts of the country. What is more remarkable about DISE/SEMIS is that it has drastically reduced the time-lag in availability of educational statistics which is now down from 7-8 years to less than a year at the national and only a few months at the district and state levels.

The National University has successfully developed School Report Cards of more than 1.45 million schools imparting elementary education and about 245 thousand Secondary and Higher Secondary schools. In addition to quantitative information, the Report Cards also provide qualitative information and a descriptive report about individual schools. And, all that can now be accessed with the click of a mouse. Even school-specific raw data has also been provided online to users.

The Report Cards are produced to provide users comprehensive information on all the vital parameters, be it student, teacher or school related variables, yet concise, accurate information about each school in a standard format which is easy to understand and allows meaningful comparisons to be made among schools. We hope that these reports are used in constructive conversations which lead to improved education for all children across the country.
