NUEPA has been involved in strengthening educational management information system for more than a decade. Initially the mandate was to develop a computerized information system for Primary level of education but was confined only to DPEP districts/states. While launching *Sarva Shiksha Abhiyan* in 2001, not only was the scope of DISE extended to the entire elementary level of education but its coverage was also expanded from the DPEP districts to the entire country. In 2005-06, all the districts were covered under DISE for the first time. With The Right to Education Act in 2009, the Data Capture Format of DISE was further modified. When *Rashtriya Madhyamik Shiksha Abhiyan* (RMSA) was launched, NUEPA extended coverage of DISE from the Elementary to Secondary and Higher Secondary levels of education and developed on-line software in 2007-08. In 2012-13, a single Data Capture Format was developed for the entire school education in view of which the DISE software was re-designed and information collected from more than 1.52 million schools.

School Education in India: 2015-16 is based on data collected during U-DISE 2015-16 with 30th September, 2015 as date of reference. The document is based on the data received from as many as 1.52 million schools spread over 680 districts across 36 States & UTs. A study of this magnitude cannot be completed without the active involvement and participation of the EMIS professionals at the national and sub-national levels. I am thankful to all the State Project Directors of SSA and RMSA, the state level EMIS Coordinators and district level Programmers and Data Entry Operators for supply of data.

I take this opportunity to thank UNICEF, Delhi, in particular Ms. Euphrates Gobina for consistently supporting EMIS activities ever since the inception of DISE and Secretary, Additional Secretary, Joint Secretary and Directors, Department of School Education & Literacy, Government of India, who played a crucial role in facilitating the implementation of U-DISE in various states.

I am thankful to Prof. Jandhyala B. G Tilak, Vice-Chancellor (I/C), NUEPA, for encouragement and guidance. I take this opportunity and thank NUEPA faculty for their support.

The contribution of Mr. Naveen Bhatia, Computer Programmer, NUEPA in database management and software development, is gratefully acknowledged. I am thankful to U-DISE project team at NUEPA, especially Ms. Aparna Mookerjee, Consultant for computing indicators, Mr. Jay Prakash Gupta for creating graphs and Mr. Deepesh Kr. Singh for typesetting. I am also thankful to Mr Arun Joshi, Consultant (Publications, DISE Project) for timely bringing out the publication.

I hope that this publication will be of value to education planners, policy formulators and researchers. Suggestions for improvement are most welcome.

October 2016
New Delhi

Definitions Used

Government Managements: Includes school managed by the Department of Education, Tribal & Social Welfare Departments, Local Body, Central Government, Other Government Managements and No Response, if any.

Private Managements: Includes schools managed by the Private Aided and Private Unaided managements.

Gross Enrolment Ratio: Total enrolment in primary education (Grades I-V), regardless of age, expressed as a percentage of the eligible official primary school-age population (6 to 10+ years) in a given school-year.

Net Enrolment Ratio: Enrolment in primary education (Grades I-V) of the official primary school age group (6 to 10+ years) expressed as a percentage of the corresponding population.

Adjusted Net Enrolment Ratio: No. of pupils of the official primary school age group (6 to 10+ years) who are enrolled either at primary or upper primary expressed as a percentage of the corresponding population.

Age-specific Enrolment Ratio: Enrolment of a specific single-age/age-group (i.e. 6 to 10+ years) enrolled, irrespective of the level of education, as a percentage of the population of the same age/age-group.

Repetition Rate (Grade-specific): Proportion of pupils from a cohort enrolled in a given grade at a given school year who study in the same grade in the following school year.

Grade-specific Drop-out Rate: Proportion of pupils from a cohort enrolled in a given grade at a given school year who are no longer enrolled in the following school year. This is calculated by using grade-wise enrolment in 2013-14 and 2014-15 and grade-specific number of repeaters in 2014-15.

Average Annual Drop-out Rate: Presents average of grade-specific drop-out rates in Primary Grades and is calculated by using considering grade-wise enrolment in 2013-14 and 2014-15 and grade-specific number of repeaters in 2014-15.

Retention Rate: Enrolment in Grade V (*minus repeaters*) in a year as a proportion to enrolment in Grade I four years back is termed as retention rate at the Primary level.

Transition Rate: Number of pupils admitted (*new entrants*) to the first grade of a higher level of education in a given year, expressed as a percentage of number of pupils enrolled in the final grade of the lower level of education (i.e. Grade V) in the previous year.

Population Projections: Wherever necessary, projected child population provided by the Planning, Monitoring and Statistics Cell, Department of Higher Education, Ministry of Human Resource Development has been used.

Disclaimer

Raw data presented in the document or used for calculating indicators are essentially based on data provided by the States and UTs through annual data collection (as on 30th September 2015). NUEPA is committed to provide professional and software support to all States and UTs as well as for dissemination and analysis of data as it is provided by the individual States and UTs.

In no way, NUEPA is involved in data collection as such and therefore the accuracy and truthfulness of the data rest with the States/UTs. The State Project Directors have certified that data is free from errors and inconsistencies and hence may be merged into the national database maintained at NUEPA, New Delhi.

+: Enrolment Ratios are based on child population provided by the Department of Higher Education, Ministry of HRD. As per update on (http://mhrd.gov.in/statist?field_statistics_category_tid=163, date of access: 30th June, 2016). *: State does not have Scheduled Caste population @: In a few states such as Odisha higher secondary is part of higher education which may not have been covered under U-DISE.

Table 3.30 Gross Enrolment Ratio for Scheduled Tribes: 2015-16

One Million+ School Report Cards

(www.schoolreportcards.in)

**Winner of Manthan Award South Asia 2010, e-Governance & eINDIA 2010 National Awards
and EMPI-Indian Express Indian Innovation Award 2012**

The National University of Educational Planning and Administration has created a comprehensive database on elementary education in India under one of its most prestigious projects, known as, District Information System for Education (DISE). Off late, MIS for Secondary level of education has also been developed which covers both Secondary and Senior Secondary schools/sections of all the districts of the country. What is more remarkable about DISE/SEMIS is that it has drastically reduced the time-lag in availability of educational statistics which is now down from 7-8 years to less than a year at the national and only a few months at the district and state levels.

The National University has successfully developed School Report Cards of more than 1.45 million schools imparting Elementary education and about 237 thousand Secondary and Higher Secondary schools. In addition to quantitative information, the Report Cards also provide qualitative information and a descriptive report about individual schools. And, all that can now be accessed with the click of a mouse. Even school-specific raw data has also been provided online to users.

The Report Cards are produced to provide users comprehensive information on all the vital parameters, be it student, teacher or school related variables, yet concise, accurate information about each school in a standard format which is easy to understand and allows meaningful comparisons to be made among schools. We hope that these reports are used in constructive conversations which lead to improved education for all children across the country.
